## The Airport is the perfect place to advertise

In the year 2008, more than 2.4 million passengers travelled via City Airport Bremen, and the growth rate points upwards.

This makes City Airport Bremen an ideal place to draw attention to your company or your products. We are currently designing new concepts for all areas inside and outside the main buildings. In doing so, we are pleased to meet customer requests for advertising areas offering a special level of presence. Possibilities range from areas measuring 2 m<sup>2</sup>, in the form of backlit poster supports, to large banners measuring 100m<sup>2</sup> and more.
